Work Experience

Full Stack Engineer • United health group , Optum

June 2021 - Present

Currently, I hold the position of a Full Stack Developer, actively contributing to a pivotal P1 project. This initiative caters to approximately 100k medical professionals on a daily basis, providing comprehensive end-to-end claim filing and payment services. The technological architecture of this project is rooted in Angular for the frontend and Spring Boot for the backend.

Software engineering intern • Reliance Jio Platforms Limited

January 2021 - June 2021

I contributed to the development of an incident management system for the Reliance plant in Gujarat. In this project, I developed the entire frontend using Angular, adhering to provided mock-ups and design specifications.
